

Yacht Carbon Offset

Brokers Guide to Charter Carbon Offsetting

*“Helping the superyacht community to reduce
its net environmental impact since 2008”*

www.yachtcarbonoffset.com

Our Service

Many clients and brokers are keen to ensure that the carbon footprints of their charters are counterbalanced. This is easy to do - **team up with Yacht Carbon Offset!** Carbon offsetting is a way to improve the environmental profile of a yacht charter by effectively counterbalancing greenhouse gas emissions from the charter activity.

4. We issue a personalised certificate stating the tonnes of CO₂ offset, the associated fuel or charter activity, and the project selected.

1. We work with the charter broker and captain to identify the fuel consumption of the charter.

2. We calculate the greenhouse gas emissions associated with the identified fuel and other charter activities (as appropriate).

3. We complete the offset by supporting a high-quality carbon reduction project, validated by one of four International Carbon Registries.

Your clients can use our **transparent and tailored** carbon offset service to support a carbon reduction project of their choice. Our projects are in developing countries around the world, supporting the environment, and giving back to the local communities.

All our carefully selected, validated projects produce significant carbon savings. Our renewable energy, coastal marine ecosystem, or other projects are primarily situated in coastal or island locations. Here is a sample of the projects we support. For details of all current projects, please visit our website: www.yachtcarbonoffset.com.

Wind farm
Jamaica (UNFCCC)

Hydroelectric
Côte d'Ivoire (VCS)

Geothermal
El Salvador (UNFCCC)

Why Use Yacht Carbon Offset?

With many carbon offsetting companies to choose from, we believe that our transparent, personalised service stands out from the crowd. Our process is of the highest quality and has Lloyds Register Quality Assurance certification.

Our Service:

Luxury Yacht Focus

Competitive Price

Project Relevance

Carbon Market Expertise

Transparent Audited Process

Why Offset?

Immediate Positive Impact	Demonstrate Climate Responsibility
Emissions Quantified and Counterbalanced	Practical, Effective and Verified

Whatever your reason, carbon offsetting is a positive action for the environment.

We also invite an optional charity donation of €/\$/£1 per tonne of carbon offset to support marine-focused environmental charities. See our website for more details.

Your Certificate

We issue a personalised, auditable certificate for each carbon offset transaction.

Issuance of each certificate follows our fully documented procedure, which is externally audited as part of our Lloyds Register Quality Assurance certification

Relax & enjoy the charter with peace of mind that the carbon impact of the cruise is counterbalanced.

Our Pricing

At less than €0.05 per litre (at Q1, 2023), the price to offset a charter is modest.

Our Carbon Offset Price

Example Charter Week (metres, m)	Fuel Consumption (litres)	Tonnes Emitted (tCO ₂ e)	Carbon Offset Cost (€)
 20-39m	5,000	14	€ 243
 40-49m	10,000	28	€ 422
 50-59m	15,000	42	€ 595
 60-69m	25,000	70	€ 942
 70+ m	50,000	139	€ 1,810

For example, carbon offsetting a 7-day charter on a 50-metre yacht consuming **15,000 litres** of fuel would cost just **€595** (at Q1, 2023).

You will know that fuel consumption for a week's charter depends on the yacht's size, operational characteristics, and the charter itinerary. The charter offset can be based on either an actual or estimated fuel quantity, or a monetary offset value. Yacht Carbon Offset can help you estimate the charter's fuel consumption, if required.

The timing of the carbon offset transaction completion can be adapted to best suit the needs of the charter broker and the charter client.

The Order Process

We have two charter offset models. Either the Broker or the Charter Client can pay:

Step	Broker Pays	Charter Client Pays
1. Your Choice	Decide whether you want to offset: a. A fixed amount of fuel and receive the certificate pre-charter b. The exact fuel consumption and receive certificate post-charter Either is possible. It is your choice.	
2. Order	Please complete the order form below, or send equivalent information to sales@yachtcarbonoffset.com . Or call us on +44 370 224 9555.	
3. You receive our Quotation	Addressed to the broker	Addressed to the person who is to pay us (Captain, Broker, Central Agent...)
	The quote will include a selection of the projects available to complete the carbon offset transaction.	
4. Include in Charter Agreement	Not Required	We recommend that a special condition* is inserted in to the charter agreement to give proper direction to the Captain / Manager.
5. Finalise Order	Approve quote and confirm your selected project - If you have decided option b., you or the Captain confirm the exact fuel quantity at the end of the charter.	
6. Final Invoice	Yacht Carbon Offset will issue the final invoice, reflecting your selected project. You can settle the invoice by credit card or bank transfer.	
7. Certificate	You will receive your personalised Yacht Carbon Offset Certificate for presentation to the Charter Client.	

*Suggested text for contract special condition:

a. Fixed Fuel Amount

Charter Carbon Offset – The Charter Client wishes to carbon offset [] litres of fuel in relation to the charter. The Parties agree that an [additional] APA provision of Euro [] shall be retained by the Broker for this purpose. The Broker shall arrange the carbon offset through its selected supplier. The Charter Client will receive the Carbon Offset Certificate [at the start of] the charter period.

b. Exact Fuel Amount

Charter Carbon Offset – The Charter Client wishes to carbon offset the fuel associated with the charter. The Parties agree that an [additional] APA provision of Euro [] shall be retained by the Broker for this purpose. The captain shall provide final fuel consumption information to the broker or nominated carbon offset supplier at the end of the charter. The Charter Client will receive the Carbon Offset Certificate promptly after the charter period.
