

Yacht Carbon Offset

Charter Carbon Offsetting

“Helping the superyacht community to reduce its net environmental impact since 2008”

www.yachtcarbonoffset.com

Our Service

Yacht Carbon Offset provides an immediate and effective way to counterbalance the unavoidable greenhouse gas emissions associated with your charter's fuel usage.

1. We work with the charter broker and captain to identify the fuel consumption of the charter.

4. We issue a personalised certificate stating the tonnes of CO₂ offset, the associated fuel or charter activity, and the project selected.

2. We calculate the greenhouse gas emissions associated with the identified fuel and other charter activities (as appropriate).

3. We complete the offset by supporting a high-quality carbon reduction project, validated by one of four International Carbon Registries.

Why Use Yacht Carbon Offset?

With many carbon offsetting companies to choose from, we believe that our transparent, personalised service stands out from the crowd. Our process is of the highest quality and has Lloyds Register Quality Assurance certification.

Our Service:

Luxury Yacht Focus

Competitive Price

Project Relevance

Carbon Market Expertise

Transparent Audited Process

Why Offset?

Immediate Positive Impact	Demonstrate Climate Responsibility
Emissions Quantified and Counterbalanced	Practical, Effective and Verified

Whatever your reason, carbon offsetting is a positive action for the environment.

Our Pricing

At less than **€0.05 per litre** (2024) the price to offset a charter is modest.

Our Carbon Offset Price

Example Charter Week (metres, m)	Fuel Consumption (litres)	Tonnes Emitted (tCO ₂ e)	Carbon Offset Cost (€)	Price per litre (€)
 20-39m	5,000	14	€ 215	€ 0.043
 40-49m	10,000	28	€ 420	€ 0.042
 50-59m	15,000	42	€ 595	€ 0.039
 60-69m	25,000	70	€ 941	€ 0.037
 70+ m	50,000	139	€ 1,810	€ 0.036

For example, carbon offsetting a 7-day charter on a 50-metre yacht consuming **15,000 litres** of fuel would cost just **€595**.

We also invite an **optional charity donation of €/\$/£1 per tonne of carbon offset** to support marine-focused environmental charities. See our website for more details.

Relax & Enjoy your charter with peace of mind that the carbon impact of the cruise is counterbalanced

Projects & Certificate

Selected Projects

Using our service you can support one of our carefully selected carbon reduction projects. All projects are located in developing countries and include renewable energy power projects and coastal marine ecosystem projects. Here is a sample of the projects we support.

Dominican Republic (VCS)

Côte d'Ivoire (VCS)

Mauritius (VCS)
Credit to Stéphanie Bellerose/UNDP in Mauritius and Seychelles

For details of all current projects, please visit our website: www.yachtcarbonoffset.com.

Your Certificate

We issue a personalised, audit-able certificate for each carbon offset transaction.

Issuance of each certificate follows our fully documented procedure, which is externally audited as part of our Lloyds Register Quality Assurance certification
